

## **Parts Kits**

Parts kits are usually available. E-mail [dennisrech@comcast.net](mailto:dennisrech@comcast.net) for current pricing.

Included with the instruction manual is a complete parts list containing sources, stock numbers and prices. Almost every part has two suppliers. Everything in Mirror-o-Matic can be purchased from catalog companies such as MSC, Graingers, McMaster-Carr, Johnstone and local hardware stores such as Home Depot. Check with the suppliers listed below.

MSC will sell to anyone with a credit card. Ask MSC for one of their wonderful free 4500 page catalogs.

MSC's phone number is 1-800-645-7270.

E-mail them at [www.mscdirect.com](http://www.mscdirect.com)

McMaster-Carr is similar to MSC. It is a very good company. E-mail is [www.mcmaster.com](http://www.mcmaster.com)

Again, they sell to everyone.

Grainger will sell to anyone with a business card, letterhead or sales tax number. There is a large number of Grainger/Dayton dealers around that will sell for a nominal markup for those who are without business connections.

Johnstone is a great place to buy belts, shafts and pulleys. You will probably have to go through a heating or plumbing shop to buy from them. Wholesale prices are listed.

The Internet web page [www.mirror-o-matic.com](http://www.mirror-o-matic.com) has the complete parts list posted. Each of the suppliers listed also has a web site.
